STAR Eco Station Celebrates 20 years of Exotic Rescue!

Gifts from Indigenous people of the Amazon to the STAR Eco Station!

20th Anniversary of preservation through education!

The STAR Eco Station has grown tremendously since it began in 1997! As an environmental science museum and exotic-wildlife rescue center, we have become a haven for endangered and illegally-trafficked exotic animals confiscated by the U.S. Fish and Wildlife Service (USFWS). Our founders, Erick, Jr. and Katiana, along with their parents Erick, Sr. and Katya Bozzi developed a partnership with USFWS, and through them we have been able to successfully rescue tens of thousands of animals! That's a lot of lives saved! In addition to rescuing so many animals, we have been able to enrich the lives of thousands of children.

Our animals have provided educational enrichment for hundreds of schools throughout California. Don't forget the hundreds of people that visit the STAR Eco Station throughout the year! Each year we never know what to expect, or what types of

animals we will rescue, but we couldn't do it without the support of our visitors, partner schools and donors!

The Eco Station doesn't just focus on rescuing animals at home, it is dedicated to saving the environment worldwide. We worked with a grant from Waterkeeper to set up biological research and education centers in the Amazonian Rainforest and were given a commendation for our work there by the President of Columbia. Eco Station itself also spearheaded a project which trained the Wayuú indigenous people of the Puerto Iniriba area of Colombia how to preserve their region for the future and protect it from corporate interference.

Last year was full of achievements for us and we couldn't be happier with our success! In 2017 alone, STAR Eco Station rescued over 30 hissing cockroaches, 18 lizards, 16

snakes, 1 crocodile, 3 alligators, 5 fish, 8 turtles, and 1 frog. Not only did we rescue close to 80 animals last year, but we also built great relationships with other animal rescues within and outside of California! Our newest rescue partners include Colorado Gators Reptile Park in Mosca, CO, and Forever Wild Exotic Animal Sanctuary in Phelan, CA. Through these great partnerships, we are able to continue rescuing more animals that need our help, because without us they may have nowhere else to go.

STAR Eco Station is also proud to share that we aided in securing homes for animals seized and rescued through U.S. Fish and Wildlife Service's (USFWS) "Operation Jungle Book"! According to USFWS, Operation Jungle Book is the biggest animal trafficking sweep in Los Angeles History, successfully catching and arresting 16 people involved in animal smug-

gling cases. Of the animals rescued in this operation, STAR Eco Station provided a home for several turtles, fish, coral, and lizards. Now, that's something to be proud of!

Here's to an outstanding 20 years of animals, education, community, science and conservation! Thank you to all of our community partners, visitors, donors, students, sponsors, and YOU for supporting us and all of our efforts. Together, we can continue to make a difference for wildlife. We look forward to another successful 20 years with you!

Start the New Year off right with a trip to the STAR Eco Station and learn how you can take part in another successful year of animal rescues!

NOVA MEETING PLACE: 5TH GRADE PAVILLION EATING AREA

GETTING TO YOUR STAR NOVA CLASS

1st - 5th Grade

Students will meet in the 5TH GRADE PAVILLION EATING AREA

AFTER YOUR STAR NOVA CLASS

Students will need to be picked up at the 5TH GRADE PAVILLION EATING AREA

1st grade

Students who are not in an after school childcare program MUST be checked out by a parent, legal guardian, or person authorized by their parent. If you are late to pick up your child from their NOVA class, you may be charged a late fee of \$1 per minute. Star allows a five-minute grace period. After 5 minutes, STAR will charge \$6, then \$1 more each additional minute. Late fees must be paid upon arrival with credit card or check. No cash accepted.

2nd-5th grade

Students will be released to the yard. Please be on time to pick up your child because STAR is not responsible for your child before and after class.

REGISTRATION FEE

A \$10 fee is required for each student PER SESSION to cover insurance and registration costs. This fee is non-refundable and is not applicable toward the cost of the classes.

Students CURRENTLY enrolled in the STAR Galaxy Program DO NOT pay the \$10 registration fee.

ABSENCES & EARLY RELEASE

Please contact your STAR Director if your child will be absent.

If your child is absent from school, it is school policy that he/she cannot attend STAR NOVA that day.

If your child must be released early from his/her NOVA class, please contact your STAR Director in advance in writing and detail which authorized guardian will pick up your child, and the day, date, and time your child must leave.

REFUND POLICY

1. No refunds of any kind will be given after the first week of attendance.
2. We reserve the right to cancel any class due to insufficient enrollment. Should such an event occur your money will be credited.
3. Tuition will not be refunded if your child misses a class, quits, or is asked to leave due to disruptive behavior.

BEHAVIOR POLICY

STAR NOVA reserves the right to dismiss students whose behavior proves disruptive to other participants. In such cases a consultation will be held with all relevant parties before any action is taken. No refund will be offered in such cases.

SCHOLARSHIPS

Scholarships are available on a sliding scale basis. Scholarship paperwork MUST be submitted by **January 16th, 2018**. Please see your STAR NOVA director to inquire for more information.

If you have any questions, or for information about school closures and minimum days contact your STAR NOVA Director, Cynthia Lemus, at 310-386-6359 and balboa@starinc.org

FIRST LEGO LEAGUE: HYDRO DYNAMICS

Grab your raincoat, you might get wet! FIRST LEGO League is an exciting, team-based robotics competition in which students design, build, and program robots to solve a variety of challenges, and this year's theme is WATER! Budding scientists and engineers must explore how water is used, where it comes from, and how it is a vital part of our world. Each team maps out a solution to a problem, and brings it to life with a spectacular robotic creation! With a focus on teamwork and positive discovery, students will learn that working together (and with robots) can lead to spectacular results and achievement. So put on your snorkel and start building!

IMPORTANT NOTE: Students must be between ages 9-14. Each class is 2 hours long, and students must participate for 2 sessions (Nova 3 and Nova 4). Includes a practice and competition event. Teams may attend additional competitions depending on qualifying tournament results. Class size is capped at 10 students and will be accepted on a first come, first served basis.

STAR Eco Station

Speaking of Alligators

See you now alligator!

Earlier this year, STAR Eco Station was able to connect with another animal rescue in California and re-home our two larger alligators many of you knew as, “Rex” and “Rudy”. We’ve done it again! We recently re-homed 3 more young alligators, 2 snapping turtles, 2 iguanas, and 2 boa constrictors with Colorado Gators Reptile Park in Mosca, CO. This rescue has created an educational program to teach people about the biology, behavior and ecological role of reptiles. They also explain which reptiles make good pets and which will eventually become too big and impossible to handle. In the colder months, while most of the state is covered in snow, the alligators and other rescue animals stay

toasty with warm geothermal water that is pumped in from a natural well. We were lucky enough to place these animals in a much larger facility that had the space and resources capable of caring for them for the rest of their lives. It is through partnerships and friendships like this that we are able to continue rescuing more animals that need our help.

ADOPT BEFORE YOU SHOP!

And always do your research before considering a new pet. Many of our residents at STAR Eco Station are up for adoption to worthy forever homes! You can find all of our adoptable animals at Petfinder.com and search “STAR Eco Station”

Is Climate Change Still Happening?

Hurricane Harvey in Texas

Yes! California may be warm and sunny most of the year, but that’s not always a good thing! Believe it or not, the planet is warming up fast—faster than it ever has before. The earth is getting warmer because people are adding greenhouse gasses that heat up the atmosphere. Most of these gasses come from burning fossil fuels. The warm temperatures are causing a lot of changes around the world, such as melting ice and more powerful storms. Even a 2°-4° change can have a dramatic effect on the earth’s climate. Weather is driven by heat, and when temperatures shift, patterns in air and water currents become confused. When this happens, energy builds up and has to be released elsewhere, generally in

the form of hurricanes. Unfortunately, many animals are heavily affected due to people’s actions. Hurricane Irma in Florida recently destroyed a large portion of the coral reef, and the rising temperature is making it harder for the coral to heal. If coral reefs disappear, marine biodiversity drops, resulting in less fish, and this can severely affect communities that rely on fishing. Climate change has so many negative effects on the planet and individual communities as well. Recently, alligators in Texas were displaced when Hurricane Harvey caused rising waters, forcing them to higher ground closer to people. When animals are displaced, it is up to rescues like STAR Eco Station to step in and help.
